# WEST BENGAL STATE UNIVERSITY 

B.Com. Programme 2nd Semester Examination, 2020

## FACGCOR04T-B.Com. (DSC4)

## Business Mathematics and Statistics

Time Allotted: 2 Hours

Full Marks: 50

The figures in the margin indicate full marks.<br>Candidates should answer in their own words and adhere to the word limit as practicable. All symbols are of usual significance.

## GROUP-A

1. Answer any five questions from the following:
(a) If $U=\{1,3,5,7,9,12,15\}$ be a universal set and $A=\{1,5,9,15\}$ $B=\{3,7,9,12,15\}$ are two subsets of $U$ then find $(A \cap B) \cup(A-B)$.
(b) If $A=\left(\begin{array}{ll}x & y \\ u & v\end{array}\right)$, then show that $\operatorname{adj}(\operatorname{adj} A)=A$.
(c) Evaluate: $\lim _{x \rightarrow 3} \frac{\sqrt{x}-\sqrt{3}}{x^{2}-9}$.
(d) Find $\frac{d y}{d x}$, where $y=e^{x^{2}+2}$.
(e) Find the median of $94,33,85,67,32,81,48,69$.
(f) In a distribution, median is 30 , A.M. is 27 ; find mode.
(g) If $b_{y x}=-0.9$ and $b_{x y}=-0.4$, find $r_{x y}$.
(h) Find the Geometric Mean (G. M.) of 3, 6, 24, 48.

## GROUP-B

## Answer any four questions from the following

$5 \times 4=20$
2. In a class of 25 students, 12 students have taken Economics, 8 students have taken Economics but not Mathematics. Find the number of students who have taken Economics and Mathematics and those who have taken Mathematics but not Economics (by set theory solve it).
3. Solve the system of equations by Crammer's rule:

$$
2 x-3 y+z=4 ; x-y+z=6 ; 3 x+5 y-z=19
$$

4. Calculate the compound interest on Rs. 1,500 at $5 \%$ in 4 years, the interest being compounded annually.
5. Show that the maximum value of $x^{3}+\frac{1}{x^{3}}$ is less than its minimum value.
6. The weight in pounds of 48 students of a class are given below:

| 110 | 160 | 150 | 105 | 175 | 172 | 125 | 120 | 136 | 169 | 140 | 135 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 100 | 178 | 170 | 118 | 168 | 154 | 110 | 127 | 149 | 124 | 80 | 140 |
| 120 | 90 | 165 | 126 | 108 | 136 | 95 | 155 | 112 | 156 | 95 | 102 |
| 125 | 130 | 85 | 137 | 128 | 120 | 88 | 164 | 128 | 175 | 149 | 168 |

Arrange the above data in the frequency distribution consisting of 10 classes intervals by tally marks.
7. Calculate the mean deviation from the mean for the following data:

| Marks | $0-10$ | $10-20$ | $20-30$ | $30-40$ | $40-50$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| No. of Students | 6 | 5 | 8 | 15 | 16 |

## GROUP-C

Answer any two questions from the following
8. An incomplete distribution is given below:

| Variable | $10-20$ | $20-30$ | $30-40$ | $40-50$ | $50-60$ | $60-70$ | $70-80$ | Total |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Frequency | 12 | 30 | $?$ | 65 | $?$ | 25 | 18 | 229 |

If median is 46 then find (i) the missing frequencies and (ii) Arithmetic mean of completed table.
9. (a) If $x=c t, y=\frac{c}{t}$; find $\frac{d y}{d x}$, where $c, t$ are constant and variable respectively.
(b) Find the standard deviation (S.D.) of the following frequency distribution:

| Height (inch.) | $60-62$ | $62-64$ | $64-66$ | $66-68$ | $68-70$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| No. of students | 35 | 27 | 20 | 13 | 5 |

10.(a) Fit a straight line trend by the method of least squares and estimate the trend values:

| Year | 1961 | 1962 | 1963 | 1964 | 1965 | 1966 | 1967 | 1978 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Value | 80 | 90 | 92 | 83 | 94 | 99 | 92 | 104 |

(b) Construct five-yearly moving averages of the number of students studying in a college:

| Yr. | 1951 | 1952 | 1953 | 1954 | 1955 | 1956 | 1957 | 1958 | 1959 | 1960 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| No. | 332 | 317 | 357 | 392 | 402 | 405 | 410 | 427 | 405 | 431 |

[^0]
[^0]:    N.B. : Students have to complete submission of their Answer Scripts through E-mail / Whatsapp to their own respective colleges on the same day / date of examination within 1 hour after end of exam. University / College authorities will not be held responsible for wrong submission (at in proper address). Students are strongly advised not to submit multiple copies of the same answer script.
